

ROL MONITOR ARM

Adjustable monitor arm ideally positioned for each individual user

Featuring extreme stability and attractive styling, the ROL ERGO monitor arm allows easy adjustment in every direction. A flat panel monitor can be positioned up and out of the way – exactly where needed. To eliminate glare. To free up work space. Effortless adjustment in every direction:

The arm allows a full 360° rotation and height adjustment within a 240 mm (9.45") range. The arm has an extent of up to 600 mm (23.6") (calculated on a screen with a 60 mm (9.45") depth) and the side to side movement is 900 mm (35.4") cc. The arm can support flat TFT screens up to 7 kg. (15.4 lbs) Compliant to VESA® 75 mm (2.95") or VESA® 100 mm (3.94") standard mounting hole patterns.
